

# Year 3 & 4 Homework

This week we are learning our X3 tables.

For homework, I'd like you to 'colour' a picture – either the one above, or one of your own choosing – by writing the **answers to your tables** in colour in the spaces; just like I've done in the picture on the left.

ONLY use the **multiples of 3** in your picture (ie 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36). See how creative you can be. It looks more realistic if you keep your numbers small, rather than write just a couple of big numbers in the spaces.
