

Science – Living things Week 6

Years 3 & 4

Watch the video: Tadpole's Promise: <https://www.youtube.com/watch?v=eKMI-a3-uNY>
Or use this image:

We are learning about lifecycles of living things.

This image shows an example of an informative poster that outlines the different stages a butterfly goes through as it experiences 'metamorphosis' which means to change its physical form or shape.

Your task: Create your own poster on a tadpole as it changes into a frog.

Want to get creative? Check out this clip that shows you how to draw the different stages [How to draw life cycle of a frog diagram](#)
