

# Science – Living things Week 6

Years 1 & 2

Watch the video: [The tiny seed- quality text](#)

Thinking/Talking:

- What did you notice in this text?
- What kind of different places could you see in this text?
- Why did the seed find it so hard to grow?

We are learning about living things and their homes.  
What they need to survive.

Draw some animals near the homes in the picture.

Think of some more animals and their homes and draw them too.

Or

**Draw your own picture:**

- With some different homes and the animals that would live in there
- Write down the different animals and describe their homes
